Xtend Life Omega-3 Review And Where You Can Buy Them

In this review, we'll be taking a deep look at Xtend-life fish oil supplements - one of the most popular fish oil products online, to see whether they're worth trying or not.

Note that this is a Xtend Life fish oil review though, so if you're just wondering **where to buy the Xtend-life fish oil Omega 3/ DHA Esters**, you can purchase them online by [visiting the Xtend-life official website here](#).

Xtend-Life is a highly respected natural health supplements and natural skin care manufacturer that established 1999 in Christchurch, New Zealand.

Unlike most other supplement companies, Xtend-life controls the manufacturing of all the products they develop through a fully owned manufacturing company Natural Products (NZ) Ltd. Both the facility and processes are registered and audited by the local council authority Environmental Health Licensing unit, directly responsible to the New Zealand Ministry of Health.

Their Omega 3 fish oil product, a best seller for Xtend-Life, is a special blend of natural New Zealand Hoki fish oil and a high concentrate tuna oil. It has some **unique anti-inflammatory characteristics unmatched by any other fish oil**.

You probably have heard a lot about the [great effects of Omega 3 DHA](#) to your health. The range of Omega 3 benefits is a long one as it is proven to be **helpful in more than 60 different cases of ailments and disorders**. This includes but not limited to the critical conditions like heart disease, strokes and brain issues.

Only fish oils provide DHA and EPA in a natural form that our body can easily assimilate. However, natural fish oils have a number of drawbacks: **high levels of contaminants such as PCBs, dioxins and heavy metals including mercury**.

Early in 2003 Xtend-Life recognized these drawbacks and after a year of development, they perfected a pure fish oil product that addressed these problems.

Top 5 Reasons Why Xtend Life Fish Oil Should Be Your First Choice

- **Produced from the BEST source.** Xtend life fish oil comes from Hoki fish that swim in clean ocean waters in New Zealand and contain **no additives or preservatives**.
- **High Nutritional Value.** In each capsule of the supplement, you will get a total of 1000 mg oil, out of which DHA content would be more than 300 mg and EPA would be more than 130 mg. **These are market leading figures!**
- **Uncompromising Quality with Fledged Manufacturing Facility.** Xtend-life has implemented hazard analysis critical control point programs (HACCP) and good manufacturing practices. This enables the company to rigorously control the quality of all raw ingredients and comply with GMP processes and standards. - **BEST Value for Money.** You can get a long term health benefits at a paltry cost of less than \$20 a month. Just check around and see if other brands can deliver the same amounts of Omega 3 at this price.
- **100% Customer Satisfaction.** If you are unhappy with their products for any reason you can return any unopened bottles for a full refund any time within ***6 months*** of your purchase.

Real Consumers' Comments on Xtend Life Fish Oil:

Whenever you are considering a health product, it is really necessary to know about the experiences of people who have consumed the product. This is a great way to know about the effectiveness of the production the real-life health problems of the people using it.

Keeping that in mind, let us look at what some of the customers said about the benefits they gained by taking Xtend life Omega-3 fish oil:

A month or so ago I was in extreme pain. I started browsing the web and found your web site. I read through the entire web site and the products you have. I didn't want surgery and don't like to take pills, but I thought I would try one last time to try something. I bought the Omega 3/DHA Fish Oil Premium and the Arthrit-Eze. After taking the products for a week I already noticed a big difference in the decrease in joint pain. I went to my doctor and he stated if I could find something or do something to hold off on surgery then do it. So far so good. I am in the process of ordering the same 2 products.

- Gina, USA

I am 57. I didn't realize how much your Omega 3/DHA Fish Oil was doing for me until I switched to a cheaper brand two months ago. My blood pressure promptly shot up to 200/111 (after dropping to nearly normal for the first time in seven years while I was on your Omega 3 DHA). So I started taking my Xtend-Life Fish Oil again, and it is back down.

In addition, my skin is softer, my lips are fuller, my hair has stopped falling out, my nails are stronger, I'm sleeping better and the quality of my sex life has improved -- I feel like a twenty year old in that area! These results only appeared (surprisingly rapidly) during my two stints on your Omega 3/DHA Fish Oil, which is why I am so sure the results are related to your supplement.

So thank you, Xtend-life. Now I can't wait to try your other products!

What Makes the Difference Between Grades Of Fish Oil Products?

[caption id="" align="alignright" width="97" caption="Xtend Life Fish Oil Premium"]

[/caption]

A technique called "**molecular distillation**" is the basic component difference when picking up Omega 3 fish oil products. This technique is the process that takes the fish and takes away the poisons and other pollutants in our world ,eg heavy metals like mercury and other metals and PCBs.

This pollution isn't totally man made either, there's also a wealth of natural pollution found in waters and it's essential that these be removed from fish oil before human consumption.

It is extremely important that you buy [molecularly distilled fish oil](#). By doing this, you make sure you are purchasing a product containing the ingredients. We have learned the manufacturing process for supplements in

New Zealand is the most harsh on the planet far surpassing that of the FDA (Food & Drug Administration).

When you buy Xtend-life pharmaceutical grade Omega 3 fish oil supplements that have been molecularly distilled, you are ensure the best quality product available.

Many companies on the market selling health supplements are no more than middle men. You'll find that they purchase bulk raw ingredients from a wholesaler with poor manufacturing and have virtually NO quality control(QC).

But Xtend-life is a credible company that sells a large wide of health supplements and been in business for a long time.

We here at Fish Oil Guide personally take Xtend-Life's Omega 3 Fish Oil product that contains no mercury in fish oil supplements because of molecular distillation with excellent results: we have noticed in increase in energy, mental acuity, and general feeling of well-being.

And don't worry if you are not living in New Zealand because many US customers successfully buy this product. Xtend life Fish Oil ships worldwide and the delivery time is great.
